		Female	-	75	78	80	78	78	80	75	China, Vietnam	

**Remarks/Market Observations:**

The following observations were gathered from market personnel and vendors for the month of March:

- Unstable but sufficient volumes of fresh marine commodities, particularly Local-fresh Galunggong, was noted at Navotas Fish Port (wholesale) this month. Following are the occurrences that adversely affected fish catch in major fishing grounds:
  - Cold weather condition brought by the Northeast Monsoon or "Hanging Amihan"; and
  - Bright moon light brought by the occurrence of Super Full Moon on Mar. 28.
- Imported-frozen Galunggong continues to be available at the fish port as an alternative commodity to its local variant. However, the prevailing price of the imported commodity was noted to be unstable and dependent on the availability of fresh marine commodities.
- Aquacultured commodities (particularly Tilapia, Bangus, and Hipon) were noted to have sufficient availability coming from major source areas. Prices of these commodities vary greatly on the size and volume of unloadings.
- Major source areas of the top fishery commodities at Navotas Fish Port are as follows:
  - Bangus - Pangasinan
  - Tilapia - Batangas
  - Imported-frozen Galunggong - China, Vietnam
- Philippine Fisheries Development Authority (PFDA) continues to implement precautionary safety measures (eg., wearing of face masks and face shields as well as white shirt and white boots; and regularly scheduled cleaning and disinfection) to avoid further spread of COVID-19 at Navotas Fish Port.

(-) - Price and Volume not available during price monitoring

NA- Source Area not available during price monitoring
