<p>The following observations were gathered during the actual price monitoring activities this week:</p> <ol style="list-style-type: none"> Ample displays of various variants of Galunggong (i.e., Balsa, Burot, Lalaki) in mixed sizes were noted in the monitored retail markets this week. Prevailing prices in selected markets were lower this week as some supplies were only remaining unsold stocks from previous days; hence, were of lower quality (in terms of freshness) . Relative to this, no Imported-frozen Galunggong was recorded in the monitored retail markets throughout the week. This may be attributed to the sufficient availability of its local-fresh variant, which is more preferred by consumers. Alumahan, on the other hand, has very limited availability this wherein minimal supplies were derived from Malabon and Navotas (retail) Fish Ports. For aquacultured commodities, particularly Bangus and Tilapia, no changes were recorded in the prevailing prices as supplies remain sufficient to cater to the demand from consumers. Top fishery commodities in the monitored markets were sourced mainly from the following: <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local-fresh Galunggong - Navotas Fish Port, Navotas Fish Port Imported-frozen Galunggong - NA Alumahan - Navotas Fish Port, Navotas Fish Port "<i>Matamal na bentahan</i>" continues to be apparent among the monitored markets. In response to the low demand and minimal number of buyers in the monitored markets, some vendors are opting to sell lower volume and limited varieties of fishery commodities to avoid spoilage and ensure that all supplies are sold out by the end of the day. Meanwhile, other vendors are opting to not open their fish stalls on a daily basis, operating on an alternate-day schedule or during weekends only where there is higher influx of people As precaution against COVID-19 and in accordance with General Community Quarantine (GCQ), market administrators continue to implement precautionary measures such as but not limited to wearing of face masks and face shields, mandatory temperature checks, observance of physical distancing, and regularly scheduled cleaning and disinfection in the monitored markets. <p>Fluctuations in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Atule mate</i> or Salay Batang - Large (Php200/kg - Php380/kg) - lowest prevailing price of Php200.00/kg was recorded in Mega-Q Market where supplies were relatively smaller in size; thus, were sold at a lower price. Highest prevailing price of Php380.00/kg was noted Farmers Market where supplies were larger in size. <i>Decapterus russelli</i> or Galunggong "Babae" (Php60 - Php110/kg) - lowest prevailing price of Php60.00/kg was recorded at Commonwealth Market where supplies being sold were of low quality (i.e., "<i>butas na ang tiyan</i>"). Highest prevailing price of Php110.00/kg were of good quality and bigger in size. <i>Lethrinus sp.</i> or Bitilya (Php140- Php400/kg) -lowest prevailing price of Php140.00/kg was recorded at Navotas Retail Market where supplies are abundant and sourced directly from Navotas Fish Port. Highest prevailing price at Php400.00/kg was noted at Farmers Market where supplies were sourced from Lucena, Quezon; hence, are sold at a higher price. <i>Mene maculata</i> or Chabeta/Hiwas (Php150/kg - Php340/kg) - lowest prevailing price of Php150.00/kg was recorded at Balintawak Market where supply are in low quality as supplies are from previous market days. Highest prevailing price were noted at Guadalupe Market where supplies were of good quality. Further, Guadalupe Market is a secondary market that sources from Farmers Market; hence, the higher selling price. <i>Trichiurus lepturus</i> or Espada (Php220 - Php360/kg) - lowest prevailing price of Php20.00/kg was noted at Navotas Retail Market where supplies are abundant in volume and sourced directly from Navotas Fish Port. Highest prevailing price of Php360.00/kg was noted at Marikina Market where limited volumes were noted. In addition, Marikina Market is also a secondary market; hence, offers commodities at a higher price range.
