Remarks/Market Observations:	The following observations were gathered from market personnel and vendors this week:																																
	<p>1. The occurrence of Super Full Moon on Mar. 28 may have caused lesser but still sufficient displays of fresh marine commodities, including Local-fresh Galunggong, in the monitored retail markets during the early part of the week. Upon the start of Lent Season, larger volumes and increased prices of fishery commodities were noted in the monitored markets as consumers divert to from meat products to fish in observance of the Lent Holiday.</p> <p>2. With the sufficient supplies of its local-fresh variant, a significant decrease in the availability of Imported-frozen Galunggong in the monitored retail markets was noted. More specifically, this week, only Tandang Sora had supplies of the imported commodity,</p> <p>3. Alumahan, on the other hand, continues to have unstable availability in the monitored retail markets, with majority of available supplies being large-sized and sourced from Malabon Fish Port (Lucena, Quezon).</p> <p>4. For Bangus and Tilapia, among other aquacultured commodities, were noted to have ample supplies and stable prices in the monitored retail markets.</p> <p>5. Top fishery commodities in the 16 monitored retail markets are sourced mainly from the following areas:</p> <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong -Navotas Fish Port (Palawan) & Lucena, Quezon Alumahan - Malabon Fish Port (Lucena, Quezon) <p>6. Despite the occurrence of Lent Season, low number of buyers in the monitored markets were observed. This may have been influenced by the implementation of Enhanced Community Quarantine (ECQ) in NCR Plus (inc. Bulacan, Rizal, and Laguna) from March 29 until April 4. Relative to this, strict implementation of precautionary safety measures was noted in the monitored retail markets. Among these measures are "One Entry, One Exit" policy, mandatory temperature checks and wearing of face masks and face shields, and regularly scheduled cleaning and disinfection.</p> <p>7. In view of the recent surge in COVID-19 cases, no price monitoring activities were conducted at Pasay Public Market and Navotas Fish Port Markets 3-5. Meanwhile, in the markets monitored by BFAR CO, data gathering is done via text and call and covers only the Top 4 Commodities (Bangus, Tilapia, Local-fresh & Imported-frozen Galunggong, Alumahan). Resumption of physical price monitoring activities in the monitored markets will be subject to risk assessment with the top management and the decline of COVID-19 cases to a "tolerable level" in Metro Manila.</p>
