Remarks/Market Observations:	<p>The following observations were gathered during the actual price monitoring activities this week:</p> <ol style="list-style-type: none"> 1. Lesser volume of unloadings of fresh marine commodities were noted in the monitored retail markets this week due to hampered fishing and trading operations due to the unfavorable weather condition brought by Typhoon Dante. Nonetheless, sufficient volumes of Galunggong in mixed sizes and different variants (i.e., balsa, burot, lalaki) were still available in the markets this week. For medium-sized Local-fresh Galunggong Lalaki (<i>Decapterus macrosoma</i>), lesser displays of the commodity were noted this week, resulting to price increments in selected markets. Further, available supplies of Galunggong from Lucena, Quezon increased in volume this week. Generally, supplies from Lucena, Quezon are reportedly better in quality (in terms of freshness) as compared to those sourced from farther areas like Palawan, which further contributed to the higher selling price this week. 2. For medium-sized Imported-frozen Galunggong, no supplies were noted in all monitored retail markets as a result of the ample supplies of its local-fresh variant, which is usually more preferred by consumers. However, limited volumes of large-sized Imported-frozen Galunggong were recorded in some monitored markets. 3. Concurrently, supplies of medium-sized Alumahan remain limited in monitored retail markets. More specifically, only nine (9) markets (Trabajo, Commonwealth, Galas, Malabon, Mandaluyong, Marikina, Guadalupe, Pasig and Caloocan) were noted to have supplies of the commodity this week. 4. For aquacultured commodities, particularly Bangus and Tilapia, no changes were recorded in the prevailing prices this week as supplies of both commodities remain sufficient to cater to the demand from consumers. 5. Top fishery commodities in the monitored markets were sourced mainly from the following: <ol style="list-style-type: none"> a. Bangus - Bulacan b. Tilapia - Batangas c. Local-fresh Galunggong - Navotas Fish Port d. Imported-frozen Galunggong - NA e. Alumahan - Malabon Fish Port 6. Low number of buyers were observed in most retail markets. As a result, vendors continue to limit the volume and variety of fish for selling to avoid spoilage and to ensure that all supplies are sold out by the end of the day. 7. As Metro Manila and its adjacent provinces (Cavite, Rizal, Laguna, and Bulacan) remain under General Community Quarantine (GCQ), safety measures (i.e., wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) remain observed in the monitored markets as continued precaution against COVID-19.
