Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Different variants and mixed sizes of Galunggong (i.e., Balsa or Decapterus macarellus, Burot or Decapterus kurroides, Babae or Decapterus russelli, and Lalaki or Decapterus macrosoma) were noted in supplies at the monitored retail markets this week. For medium-sized Local-fresh Galunggong Lalaki, sufficient volumes were recorded in the monitored retail markets this week. Consequently, no Imported-frozen Galunggong was recorded in all monitored retail markets this week. This may have been an effect of the sufficient supply of its local-fresh variant, which is more preferred by consumers. Limited supplies of Alumahan were recorded among the monitored retail markets, with majority of the available displays in large size and sourced mainly from Lucena, Quezon. For aquacultured commodities, particularly Bangus and Tilapia, have sufficient supplies and steady prices in the monitored retail markets this week. Top fishery commodities in the sixteen (16) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas & Pampanga Local Galunggong - Navotas Fish Port (Palawan) & Lucena, Quezon Alumahan - Malabon Fish Port (Lucena, Quezon) As the COVID-19 pandemic continues to cause minimal number of buyers at the monitored markets, some vendors are employing various ways to cope with the low demand for fishery commodities: <ol style="list-style-type: none"> Selling only low volumes and limited varieties of fishery commodities; and Opening stalls on an alternate-day schedule or only on weekends where there is higher influx of people. Precautionary safety measures against COVID-19 in accordance with the General Community Quarantine (GCQ) are in place among all the monitored markets. Among these measures are wearing of face mask and face shield, mandatory temperature checks, and regularly scheduled cleaning and disinfection, and others. As COVID-19 cases in Metro Manila continue to increase, physical monitoring activity in the eleven (11) retail markets as conducted by BFAR-FIDSSD remain temporarily suspended beginning March 23 until further notice. On the other hand, due to suspension of PM activity in Pasay Public Market in the past few weeks, with strict lockdown in the area per announcement of Pasay City Government, BFAR-NCR has diverted the PM activity at Ugong Valenzuela Market on May 4.
