The following observations were gathered from market personnel and vendors this week:

- Effects of the Closed Fishing Season (CFS) in Northeastern Palawan and Visayan Sea continue to affect the supplies of fresh marine commodities, particularly Local-fresh Galunggong and Alumahan, at the monitored retail markets. In addition to the low supplies brought by the CFS, the following reasons also contributed to the relatively higher price of the above-stated commodities:
 - Supplies are mainly from Lucena, Quezon, where the said commodity is sold at a higher price as compared to those from Palawan due to the shorter transit time, which affects the quality of the commodity; and
 - Prevalence of secondary markets, such as Kamuning and Tandang Sora Markets, which source from Farmers Market (primary market).
- Supplies of Imported-frozen Galunggong continue to be available at monitored retail markets as an alternative commodity to its local variant. Further, some vendors prefer selling Imported-frozen Galunggong due to its lower price, making it easier to sell.
- Bangus and Tilapia supplies at the monitored retail markets remain sufficient to cater to the demand from consumers. As a result, the prevailing price of the commodities were stable at Php165.00/kg (Bangus) and Php120.00/kg (Tilapia).
- Top fishery commodities in the 11 monitored retail markets are sourced mainly from the following areas:
 - Bangus - Bulacan
 - Tilapia - Batangas
 - Local Galunggong - Lucena, Quezon & Southern Palawan
 - Alumahan - Navotas Fish Port (Zamboanga)
- Amid the low influx of buyers in the monitored markets, vendors continue to sell very limited volume of fish to sell to avoid further profit losses. Meanwhile, some vendors are opting not to open their stalls or operate only on weekends where there are more buyers in the markets.
- Precautionary measures against COVID-19 are continuously implemented in the monitored markets to ensure the safety of vendors and consumers. These measures include wearing of face mask and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection of markets.
- In reference to DA Administrative Circular No. 17 signed November 26, Suggested Retail Prices (SRP) for Bangus, Tilapia, Imported-frozen Galunggong, and Alumahan are Php160.00/kg, Php120.00/kg, Php140.00/kg, and Php250.00/kg, respectively. Relative to this, the following monitored markets have vendors exceeding the maximum allowable limit:
 - Tilapia - Kamuning Market
 - Bangus - Trabajo, Tandang Sora, Kamuning, and Galas Markets
 - Imported-frozen Galunggong - Trabajo, Quinta, Mega-Q, Farmers, Balintawak, Munoz, Galas, and Kamuning Markets
 - Alumahan - Trabajo, Commonwealth, Mega-Q, Farmers, Munoz, Galas, and Kamuning Markets
