Remarks/Market Observations:		<p>*As per feedback of the enumerator, the number of vendors present in the market this week is lesser compared to last December due the low demand ("matumal and bentahan").</p> <p>*Majority of the Galunggong in the market this week are imported.</p> <p>*Per interview with the market personnel, most of the Tilapia supply unloaded at the Navotas Fish Port (Market 1 & 2) are from Batangas.</p> <p>*Generally, marine fish price is high at this time due to the cold weather for which the catch is usually low and difficult because fish tend to stay at the bottom.</p>
