<b>Remarks/Market Observations:</b>			<p>*Based on the team's actual price monitoring, the supply of Bangus remain low in majority of the monitored retail markets this week (October 21-25) except at the Quinta, Trabajo, Mega-Q and Farmers Markets where there is a stable supply of the said commodity. The low supply of Bangus may be attributed to the low volume coming from major source areas such as Pangasinan and Bulacan due to producers extending their culture period in an effort to increase the size and value of their Bangus in preparation for the upcoming Christmas holidays.</p> <p>*However, it was observed that the some wholesalers are still selling at a relatively higher price due to the nearing of the Christmas holidays.</p> <p>*The supply of marine fishes, including local Galunggong, are still low in majority of the monitored retail markets due to the low volume of catch caused by (1) the cold weather where marine fishes tends to stay at the bottom of the ocean and (3) the lean season for some marine fishes. The low supply of marine fishes has resulted to a higher wholesale price from their respective supplier, urging some retail vendors to: (1) also increased their selling price, (2) lessen their supply for selling, and (3) for some to sell frozen/imported fishery commodities (e.g., <i>Axius spp.</i>, <i>Decapterus spp.</i>) or other species of Galunggong such as "Babae" (<i>Decapterus russelli</i>), "Burot" (<i>Decapterus tabl</i>), and "Balsa" (<i>Decapterus macarellus</i>).</p> <p>*Meanwhile, the price and supply of Tilapia remain stable in all the monitored markets due to the adequate supply coming from Batangas and Pampanga.</p> <p>*It was observed that there is a lesser supply of seaweeds available in some of the monitored markets.</p> <p>*Some retailers at the Munoz, Commonwealth, Kamuning, and Quinta Markets noted that the demand for fishery commodities is currently low, urging them to lower their selling price (i.e., bagsak presyo) just to get back their capital.</p> <p>*Some markets vendors are selling live Tilapia at Php20.00/kg higher than fresh-chilled Tilapia.</p> <p>*The supply of Bangus, Tilapia, and local Galunggong are being sold in mixed sizes in some of the monitored retail markets.</p> <p>*The prevailing retail prices of medium-sized Bangus, Tilapia and, Galunggong is currently at Php180.00/kg, Php100.00/kg, and Php160.00/kg, respectively.</p>
