Remarks/Market Observations:	<p>*The fifth year of the implementation of the Closed Fishing Season for local Galunggong in Northern Palawan begun last November 1, 2019. Northern Palawan currently covers 92% of the landed catch at the Navotas Fish Port and comprises 22% of total landed catch nationwide (per JAO No. 01 series of 2015).</p> <p>*Based on the team's actual price monitoring, the supply of marine fishes, including local Galunggong, remain low in all the monitored markets. According to interviews, the low supply is due to the low volume of catch caused by: (1) the rainy weather brought by typhoon "Quiel", which urged some fisherfolk to halt their fishing operation, (2) the cold weather brought by Northeast wind "Hanging Amihan", wherein marine fishes tend to stay on the deeper part of the ocean, making them difficult to catch, (3) the lean season for some marine fishes, and (4) the aforementioned fishing ban for local Galunggong.</p> <p>*The low supply of marine fishes also caused an increase in the wholesale price of some suppliers, pressing some retailers to: (1) also increase their selling price, (2) lessen their supply for selling, and (3) sell frozen/imported fishery commodities (e.g., <i>Axius spp.</i>, <i>Decapterus spp.</i>) or other species of Galunggong such as "Babae" (<i>Decapterus russelli</i>), "Burot" (<i>Decapterus tabi</i>), and "Balsa" (<i>Decapterus macarellus</i>) instead.</p> <p>*On the other hand, the supply of Bangus and Tilapia remain stable in all the monitored retail markets this week (November 4-8). However, there were some recorded feedback that some wholesale suppliers are selling their Bangus at a higher price, urging some retailers to also increase their selling price. According to interviews, this may be associated to the higher demand brought by the "African Swine Fever" and the nearing of the Christmas holidays.</p> <p>*Some markets vendors are selling live Tilapia at Php20.00/kg higher than fresh-chilled Tilapia.</p> <p>*Bangus, Tilapia, and local Galunggong are being sold in mixed sizes in some of the monitored retail markets.</p> <p>*There were recorded feedbacks from some market vendors at the Commonwealth, Navotas, Kamuning, Galas, MEGA Q, and Quinta Markets that despite the nearing of Christmas holidays, the demand for fishery commodities remain low (i.e., matungal ang bentahan), urging retailers from the respective markets to lower their selling price (i.e., baksag presyo) just to get back their capital.</p>
