		Female	140 & 155	China	-	120-140	China	-	140	155	120	-	China
Remarks/Market Observations:		<p>The following observations were gathered during the actual price monitoring activities this week (December 16-20, 2019):</p> <p>*The supply of marine fishes remain low this week due to the low volume of catch caused by: (1)the cold weather brought by Hanging Amihan, wherein the marine fishes normally stay on the bottom of the ocean, (2)the lean season for the said commodities, and (3) the implementation of fishing bans for some marine fishes including local Galunggong (<i>Decapterus spp.</i>) in the Northern part of Palawan (per JAO No. 01 series of 2015), for Sardines, Herrings (<i>Sardinella spp.</i>), and Mackerels (<i>Rastrilliger spp.</i>) in some parts of the Visayan (per Fisheries Administrative Order No. 167-3 Series of 2013), and the fishing ban for Sardines in some parts of Zamboanga Sea (per BFAR Administrative Circular 255).</p> <p>*Majority of the frozen/imported commodities at the fish port are squids and salmon heads, while the supply of frozen/imported Galunggong remain low. The said observation contributed to the relatively higher price of imported Galunggong.</p> <p>*As for the importation of Galunggong, Department of Agriculture Spokesman Mr. Noel Reyes has announced that the Department has authorized BFAR to issue a Sanitary and Phytosanitary Import Clearance (SPSIC) and Certificate of Necessity to Import. This paved the way for the Bureau to accept applications and issue permits to import marine fishes, including Galunggong. (Source: <i>The Philippine Star</i>, December 6, 2019, Retrieved from: https://www.philstar.com/headlines/2019/12/06/1974779/philippines-import-galunggong-new)</p> <p>*On the other hand, the wholesale price of Tilapia remain high this week. According to interviews, this is due to the high farmgate price and the low volume of supply coming from major source areas (e.g., Batangas). It was also derived from interviews that some producers are extending their culture period in an effort to increase the price and value of their Tilapia in time for the Christmas holidays.</p> <p>*As for Bangus, a large supply of the said commodity was observed this week causing some brokers/traders to lower their price. It was also noted that despite the nearing of Christmas holidays the demand for fishery commodities remain low (i.e., matumal ang bentahan).</p>
