Remarks/Market	The following observations were gathered during the actual price monitoring activities this week (December 23-27, 2019):																																																	
Observations:	<p>*The supply of marine fishes, more specifically some seaweeds and local Galunggong (<i>Decapterus macrosoma</i>), remain very low in all the monitored retail markets. According to interviews this might be attributed to: (1) the rainy weather brought by typhoon "Ursula", which urged some fishfolk to postpone their fishing operations; (2) the cold weather brought by Hanging Amihan, wherein marine fishes normally stay on the bottom of the ocean, making them difficult to catch; (3) the lean season for some marine fishes, and (4) the implementation of fishing bans for some marine fishes including local Galunggong (<i>Decapterus spp.</i>) in the Northern part of Palawan (per JAO No. 01 series of 2015), for Sardines, Herrings (<i>Sardinella spp.</i>), and Mackerels (<i>Rastrelliger spp.</i>) in some parts of the Visayan (per Fisheries Administrative Order No. 167-3 Series of 2013), and the fishing ban of Sardines in some parts of Zamboanga Sea (per BFAR Administrative Circular 255).</p> <p>*Based on the gathered data, the prevailing retail price of medium-sized local Galunggong "lalaki" remain high at Php240.00/kg. *The low supply of marine fishes alongside the increase it the wholesale price pressed some retail vendors to: (1) also increase their selling price; (2) lessen their supply for selling; and (3) sell other species of Galunggong such as "Basa" (<i>Decapterus macarellus</i>) as well as frozen/imported fishery commodities such as <i>Axius spp.</i>, and <i>Decapterus spp.</i> instead.</p> <p>*The supply of Bangus and Tilapia are stable in all the monitored retail markets. However, the price of the two commodities increase in some of the retail vendors. According to interviews, the high price of these commodities, alongside others, may be associated to the nearing of Christmas holidays. Also, some vendors have reminded the buying public that the high price may remain until early next year. *Some markets vendors are selling live Tilapia at Php2.00/kg higher than fresh-chilled Tilapia. *The supply of Bangus, Tilapia, and local Galunggong are being sold in mixed sizes in some of the monitored retail markets.</p>
