<b>Remarks/Market Observations:</b>			<p>*DA-BFAR has lifted the closed season for Galunggong in Northeastern Palawan, with resumption of commercial fishing activities starting Feb. 1, 2019. (Source: Press Release by BFAR RFO-4B, dated 31 Jan. 2019)</p> <p>*It was observed during the actual price monitoring that despite the lifting of the closed season last Jan 31, majority of the stalls in the monitored retail markets in NCR still sell only frozen Galunggong and only a few stalls sell local GG.</p> <p>*Despite the recent news on the Taal Lake fish kill, the retail prices of the affected commodities (Bangus &amp; Tilapia) remained at Php160/kg and Php100/kg, respectively. According to the interviewed vendors the supply of Bangus and Tilapia is still stable at this time.</p> <p>*The price of marine fish is relatively high at this time due the limited supply that may be attributed to the cold weather for which the catch is usually low and difficult because fish tend to stay at the bottom.</p>
