Remarks/Market Observations:			<p>*The prevailing price of medium-sized Bangus and Tilapia remained from its prevailing price last week of Php 150.00/kg and Php 100.00/kg, respectively.</p> <p>*It was observed that there was a noticeable decrease in the fish stalls that sell frozen/imported GG. According to some vendors, this is because local GG is easier to sell and is more preferred by customers as compared to imported GG. It can also be noted that some of the monitored markets sell imported GG in the afternoon after their supply of local GG has sold out.</p> <p>*Majority of the local GG that are available in the markets are small to medium-sized.</p>
