Remarks/Market Observations:		<p>*According to brokers, the price of Bangus decreased this week due to abundant supply at the Navotas Fish Port and the low demand or lesser buyers.</p> <p>*The prevailing price of medium-sized Tilapia had a small increment. According to market vendors, this might be due to low supply of the said commodity at the Navotas Fish Port.</p> <p>*It was observed that there was a very noticeable decrease in the market stalls that sell frozen/imported GG. According to market vendors, this is because local GG is easier to sell and is more preferred by customers as compared to imported GG. It can also be noted that the price of frozen GG decreased or remained low due the abundant of supply of local GG.</p>
