Remarks/Market Observations:		<p>*The prevailing price of medium-sized Bangus at the Navotas Fish Port decreased this week. According to some interviewed brokers, this is due to an abundance in the supply and the low demand from the customers.</p> <p>*The prevailing price of medium-sized Tilapia had a small decrease from its prevailing price of Php85.00/kg last week. According to market vendors, this might be due to the stable supply of the said commodity at the Navotas Fish Port.</p> <p>*It was observed during the actual price monitoring that the price of local GG decreased. According to market vendors, this is due to the large volume of local GG unloaded at the Navotas Fish Port. It was also noted that majority of that local GG are small to medium-sized. As for the frozen GG, the prevailing price remained low due to the abundance of supply of local GG.</p>
