Remarks/Market Observations:		<p>*It was observed that there is a large volume of local small to medium-sized Galunggong unloaded at the Navotas Fish Port this week.</p> <p>*As for frozen GG, the prevailing price is currently low due to the abundance of supply of local GG.</p> <p>*The prevailing price of medium-sized Bangus remained stable this week. According to interviewed market vendors, this might be due to the stable supply of the said commodity as well as the large number of local Galunggong unloaded at the Navotas Fish Port.</p> <p>*According to market vendors, there are a fewer number of buyers in the markets this week because they are saving money in preparation for the upcoming graduation ceremonies.</p>											
NA- Not Available During Price Monitoring
