Remarks/Market Observations:	<p>* According to some interviewed market vendors, the supply of Bangus in the monitored retail markets are stable. Despite this observation, the prevailing retail price of medium-sized Bangus increased by Php10.00/kg this week from its prevailing price of Php150.00/kg last week.</p> <p>As for Tilapia and local Galunggong, their prevailing price remained at Php160.00/kg and Php100.00/kg, respectively. According to interviewed market vendors, this might be due to the steady supply of the said commodities.</p> <p>*It was also observed that there are no imported/frozen Galunggong in all the monitored markets in NCR during the actual monitoring. As per market personnel, the local GG has a longer shelf life and is preferred by the buying public.</p> <p>*Majority of the local Galunggong being sold in the monitored markets are small to medium-sized.</p> <p>*It was observed in some of monitored markets that the price of live Tilapia is higher by Php20.00/kg as compared to fresh dead Tilapia.</p>
