Remarks/Market Observations:		<p>*It was observed that there is a large volume of local small to medium-sized Galunggong unloaded at the Navotas Fish Port this week.</p> <p>*As for frozen Galunggong, the prevailing price is relatively lower this week. As per market vendors, this might be due to both the abundance in supply of local Galunggong, and the vendors and consumers preference of local over imported Galunggong.</p> <p>*The prevailing price of medium-sized Bangus remained stable this week. According to interviewed market vendors, this might be due to the stable supply of the said commodity as well as the large number of local Galunggong that was unloaded at the Navotas Fish Port. It was also noted that there is a low demand in the commodity from the buyers (i.e., "matumal ang bentahan") which may also have contributed to the relatively low price of the said commodity.</p> <p>*The prevailing price of medium-sized Tilapia remained stable at Php80.00/kg .</p>											
NA- Not Available During Price Monitoring
