Remarks/Market Observations:		<p>*According to some interviewed market vendors, the supply of marine fishes (including Galunggong) is lower this week due to the occurrence of full moon last April 19; whereas, marine fishes are scattered and difficult to catch. This was supported by PFDA who noted that there is a low volume local Galunggong unloaded at the Navotas fish port.</p> <p>*Majority of the local Galunggong being sold at the wholesale level are small to medium-sized.</p> <p>*There is a noticeable increase in the number of brokers/traders the sell imported fish such as Galunggong due to the low supply of the marine fishes.</p> <p>*The prevailing price of medium-sized Bangus remained relatively stable this week. According to interviewed market vendors, this might be due to the stable supply of the said commodity alongside with the low demand from buyers (i.e., "matumal ang bentahan").</p> <p>*The prevailing price of medium-sized Tilapia remained stable at Php75.00/kg to Php80.00/kg.</p>
