Remarks/Market Observations:	<p>*The prevailing price retail price of medium-sized Bangus and local Galunggong decreased by Php10.00/kg and Php20.00/kg, respectively from last week's price of Php150.00/kg for Bangus and Php160.00/kg for local Galunggong. As for Tilapia, the prevailing price remain unchanged at Php100.00/kg. According to vendors, the supply of the three commodities are stable but the demand from the buying public remains low (i.e., matumal ang bentahan) which might contribute to the relatively low price of the three commodities.</p> <p>*Majority of the local Galunggong in the monitored markets are medium to large-sized.</p> <p>*Based on the team's actual monitoring, the supply of Bangus, Tilapia and local Galunggong in some of the monitored retail markets are being sold in mixed sizes.</p>

Remarks/Market Observations:	*The prevailing price retail price of medium-sized Bangus (bentahan) which might contribute to the relatively low price. *Majority of the local Galunggong in the monitored market is from the local supply. *Based on the team's actual monitoring, the supply of Bangus is low.

Remarks/Market Observations:	*The prevailing price retail price of medium-sized Bangus (bentahan) which might contribute to the relatively low price. *Majority of the local Galunggong in the monitored market. *Based on the team's actual monitoring, the supply of Bangus is low.
