Remarks/Market Observations:	<p>*Based on the team's actual price monitoring, the prevailing price of Bangus and Tilapia is currently low. According to vendors, this might due to the steady supply of the said commodities alongside with the low demand from the buying public (i.e., maturnal ang bentahan).</p> <p>*As for Galunggong, it was observed that there is an abundant supply of the said commodity in majority the monitored retail markets this week as compared to last week. It can also be observed that retail price of Galunggong is currently low in some markets, making the prevailing retail price at Php120.00/kg and Php160.00/kg.</p> <p>*It was derived from the interviews that the low demand from the buying public has caused market vendors to limit their supply of fishery commodities.</p> <p>*The supply of Bangus, Tilapia and local Galunggong in some of the monitored retail markets are being sold in mixed sizes.</p> <p>*Majority of the local Galunggong in the monitored markets are medium to large-sized.</p>

Remarks/Market Observations:	<p>*Based on the team's actual price monitoring, the prevailing price of Galunggong is 200-300 pesos per kilogram.</p> <p>*As for Galunggong, it was observed that there is an abundance of supply in the market.</p> <p>*It was derived from the interviews that the low demand for Galunggong is due to the low price of the commodity.</p> <p>*The supply of Bangus, Tilapia and local Galunggong in the market is abundant.</p> <p>*Majority of the local Galunggong in the monitored markets are from the local fisherman.</p>
