Remarks/Market Observations:	<p>"Fish kill incident in Taal Lake in Batangas killed 600 tons of Tilapia worth around ₱42.9 million." (CNN Philippines, 1 June 2019. Retrieved from: https://www.cnnphilippines.com/regional/2019/6/1/taal-lake-batangas-fish-kill.html)</p> <p>*It was derived from interviews with market vendors that despite the recent news on the fish kill incident in Taal Lake, the supply of Tilapia in the retail level remain stable in all the monitored retail markets. However, some reports have noted that the effect of the fish kill on the price of Tilapia is yet to be seen.</p> <p>*Generally, the supply of the three commodities is stable in majority of the monitored retail markets. However, the demand from the buying public remains low (i.e., matumal ang bentahan). Together, these factors might have contributed to the relatively low retail prices of the top commodities. The prevailing retail prices of medium-sized Bangus, Tilapia, and Galunggong this week are currently at Php160.00/kg, Php100.00/kg and Php160.00/kg, respectively.</p> <p>*It was also derived from interviews that the low demand from the buying public has caused market vendors to limit their supply of fishery commodities.</p> <p>*The supply of Bangus, Tilapia and local Galunggong in some of the monitored retail markets are being sold in mixed sizes.</p> <p>*Majority of the local Galunggong in the monitored markets are medium to large-sized.</p>
