Remarks/Market Observations:			<p>"Fish kill incident in Taal Lake in Batangas affected 121 fish cages in the villages of Buso-Buso and Gulod in Laurel town and Bañaga in Agoncillo, killing 600 tons of Tilapia worth around ₱42.9 million." (CNN Philippines, 1 June 2019, Retrieved from: https://www.cnnphilippines.com/regional/2019/6/1/taal-lake-batangas-fish-kill.html)</p> <p>*Based on the actual monitoring at the Navotas Fish Port, there is an approximate Php5.00/kg increase in the price of Tilapia due to a decrease in the supply of Tilapia coming from Batangas. According to brokers/traders, this might be due to the fish kill incident</p> <p>*There is large volume of Tulingan (<i>Auxis rochei</i> and <i>Auxis thazard</i>) unloaded at the Navotas Fish Port this week.</p> <p>*It was also noted that the supply of Bangus and local Galunggong are stable. However, the demand of the three commodities are still low (i.e., matumal ang bentahan) which might contribute to the relatively low price of the two aforementioned commodities.</p> <p>*It was also noted that some traders/brokers are selling their supply of small-sized Bangus at a higher price compared to medium and large-sized. As per some market personnel, this is because there is a higher demand for small-sized as compared to medium and large-sized.</p>
