Remarks/Market Observations:	<p>*Based on the team's actual price monitoring, the rainy weather this week has caused: (1) some fisherfolk to halt their fishing operations resulting to a decrease in the supply of some seaweeds and marine fishes; and (2) some stalls to not open due to lack of supply. The rainy weather also caused a decrease in the observed buyers in majority of the monitored retail markets.</p> <p>*As for Bangus and Tilapia, retail vendors have noted that the supply of the two commodities are stable in the monitored markets.</p> <p>*Based on interviews, the current low demand from the buying public has caused market vendors to limit their supply of fishery commodities and for some Bangus producers to postpone their harvesting.</p> <p>*The supply of Bangus, Tilapia and local Galunggong are being sold in mixed sizes.</p> <p>*Despite the forementioned factors, the prevailing retail prices of Bangus, Tilapia and local Galunggong remain unchanged at Php160.00/kg, Php100.00/kg and Php160.00/kg</p>
