Remarks/Market Observations:			<p>Based of the team's actual price monitoring, the following factors were observed this week:</p> <p>*The rainy weather last July 2 has caused: (1) some fishermen to halt their fishing operations, resulting to a decrease in the supply of some seaweeds and marine fishes; (2) some stall not to open due to lack in supply; and (3) lesser demand due to fewer buyer in majority of the monitored retail markets;</p> <p>*The supply of marine fishes are stable in majority of the monitored retail markets last July 5.</p> <p>*Meanwhile, the supply of Bangus and Tilapia are stable in all the monitored retail markets.</p> <p>*Bangus, Tilapia and local Galunggong are being sold in mixed sizes in some of the monitored retail markets.</p> <p>*The demand from the buying public for fishery commodities is low (i.e., matumal ang bantahan), which might contribute to the relatively low prices of the fishery commodities.</p> <p>*It was also noted that the low demand from buying public might caused some market vendors to limit their supply of fishery commodities or not open their stalls at all.</p> <p>Despite the factors above, the prevailing retail prices of Bangus, Tilapia and local Galunggong remained low at Php140.00/kg & Php160.00/kg, Php100.00/kg and Php160.00/kg, respectively.</p>

Remarks/Market Observations:	<p>Based of the team's actual price monitoring, the following observations were noted:</p> <ul style="list-style-type: none"> *The rainy weather last July 2 has caused: (1) some fishery commodities to be unavailable during price monitoring. *The supply of marine fishes are stable in majority of the markets. *Meanwhile, the supply of Bangus and Tilapia are stable in majority of the markets. *Bangus, Tilapia and local Galunggong are being sold in majority of the markets. *The demand from the buying public for fishery commodities is low. *It was also noted that the low demand from buying public is due to the rainy weather. <p>Despite the factors above, the prevailing retail prices of Bangus, Tilapia, and local Galunggong are being sold in majority of the markets.</p>
