Remarks/Market Observations:		<p>*It was observed during the actual price monitoring that the supply of Bangus and Tilapia are stable. However, there was a decrease in the supply of some marine fishes including local Galunggong last July 1 due to the heavy rain this week. This also caused the number of brokers/traders that sell frozen/imported GG to increase.</p> <p>*The demand for fishery commodities remain low (i.e., matumal ang bentahan) which might contribute to the relatively lower prices of the top fishery commodities.</p> <p>*The prevailing wholesale prices of medium-sized Bangus, Tilapia, and local Galunggong are currently at Php100.00-110.00/kg, Php80.00/kg, and Php70.00-96.00/kg, respectively.</p> <p>*Some traders/brokers were observed to be selling their supply of small-sized Bangus at a higher price compared to medium and large-sized due to the higher demand for small-sized as compared to the other sizes, as per interviewed market vendors.</p>
