Remarks/Market Observations:		<p>*Based on the team's actual price monitoring, a large volume of local Galunggong and Tulingan (<i>Auxis rochei</i>) alongside other marine fishes were unloaded at the Navotas Fish Port this week.</p> <p>*It was also observed that some brokers/trader at the Navotas Fish Port are making their own supply of frozen local Galunggong.</p> <p>*The supply of Bangus and Tilapia are stable, per market brokers/traders. It was also noted that there is a small decrement in the price of Bangus among some brokers/traders due to the abundant supply of fresh marine fishes.</p> <p>*Some traders/brokers were observed to be selling their supply of small-sized Bangus at a higher price compared to medium and large-sized due to the higher demand for small-sized as compared to the other sizes.</p> <p>*The demand for fishery commodities remain low (i.e., matumal ang bentahan) which might contribute to the relatively lower prices of the top fishery commodities.</p>
