The following observations were gathered from market personnel and vendors this week:

Remarks/Market Observations:

- The implementation of Closed Fishing Season (CFS) in Northern Palawan and Visayan Sea continues to affect Local-fresh Galunggong and Alumahan supply, wherein limited volumes were recorded at the retail markets. In addition, the cold weather condition, which pushes marine fishes to stay at the bottom of the ocean, also contributes to the low availability of the marine commodities.
- Despite the unavailability of Imported-frozen Galunggong at Navotas Fish Port (wholesale), the imported commodity was observed at Munoz, Balintawak, Commonwealth, and Trabajo Markets at a sustained price of Php240.00/kg. A formal notice regarding the availability at the said retail markets will be forwarded to BFAR Enforcement Group calling for verification and appropriate action on the matter.
- No changes were reported for the prevailing retail prices of bangus (Php160.00/kg) and tilapia (Php120.00/kg) at the retail markets as supplies remain sufficient.
- The prevalence of market layers, wherein secondary markets such as Kamuning, Galas, and Tandang Sora source from primary markets (Farmers Market), also contribute to the high selling price of some commodities in some markets.
- Top fishery commodities in the 11 monitored retail markets are sourced mainly from the following areas:
 - Bangus - Bulacan
 - Tilapia - Batangas
 - Local Galunggong - Lucena, Quezon
- Per DA Administrative Circular No. 17 signed November 26, new set of Suggested Retail Prices (SRP) for Bangus, Tilapia, Imported-frozen Galunggong, and Alumahan are at Php160.00/kg, Php120.00/kg, Php140.00/kg, and Php250.00/kg, respectively.
- As markets continue to experience low influx of buyers, vendors are still finding ways to avoid loss of profit such as selling limited volumes of fishery commodities or operating on a half-day schedule. Meanwhile, some vendors in Commonwealth, Balintawak and Muñoz Markets continue to not open their fish stalls at all.
- Market administrators continue to implement safety precautionary management measures against COVID-19 (i.e., wearing of face masks and face shields, mandatory temperature checks, observance of hand disinfection measures) in the monitored wholesale and retail markets.
