		Female	-	NA	-	110	Undeclared	-	110	110	110	-	Undeclared

**Remarks/Market Observations:**

**The following observations were gathered from market personnel and vendors this week:**

- Local-fresh Galunggong was available at Navotas Fish Port (wholesale) only twice this week at relatively high retail prices. The available commodities were sourced from one (1) fishing vessel from Balabac, Southern Palawan. On Nov 26, large volumes of marine commodities such as Tulingan, Dalangang Bukid, and Gulyasan were available and unloaded volumes of Local-Fresh Galunggong were of low quality (in terms of freshness); hence, were sold at a lower price.
- No Imported-Frozen Galunggong (lalake) was traded at Navotas Fish Port throughout the week.
- Bangus and Tilapia at Navotas Fish Port continue to be sufficient, resulting to stable selling prices of the commodities.
- Major source areas of the top fishery commodities at Navotas Fish Port are as follows:
  - Bangus - Pangasinan
  - Tilapia - Batangas
  - Local-Fresh Galunggong – NA
- Philippine Fisheries Development Authority (PFDA) continues to implement safety precautionary management measures against COVID-19 (i.e., wearing of face masks and face shields, mandatory temperature checks, observance of hand disinfection measures) to ensure the safety of traders and vendors at Navotas Fish Port.
