Remarks/Market Observations:

The following observations were gathered during the actual price monitoring activities this week (December 13-19, 2020):

1. Limited volumes of Local-fresh Galunggong and Alumahan were observed the monitored retail markets, primarily from Malabon Fish Port as the commodities remain unavailable at Navotas Fish Port. The fluctuating availability and relatively high price of the commodities may still be attributed to:
   (a) Closed Fishing Season (CFS) for pelagic fishes in Northeastern Palawan and Visayan Sea, which are major fishing ground for the above-stated commodities;
   (b) Cold weather condition, which drives marine commodities to stay at the bottom of the ocean, making them harder to catch;
   (c) Most markets sourcing from Lucena, Quezon, where fishery commodities are sold at a higher price as compared to those from Palawan due to shorter transit, which affects the freshness of commodities; and
   (d) Prevalence of secondary markets such as Kamuning and Galas Markets, which source from Farmers Market (primary market sourcing from Lucena, Quezon), further contributing to the high price of the commodity.
2. Imported-frozen Galunggong remain available in selected retail markets (e.g., Trabajo,Mega-Q, and Balintawak) despite its unavailability at Navotas Fish Port (wholesale). The BFAR Enforcement Group is yet to provide updates regarding said issue, upon the Fisheries Industry Development & Support Services Division's forwarded formal notice calling for verification and appropriate action on the presence of the imported commodity despite its unavailability at Navotas Fish Port.
3. Bangus and Tilapia, on the other hand, still has stable and sufficient volumes among the monitored markets.
4. Following are the major source areas of the top fishery commodities:
   (a) Bangus - Bulacan
   (b) Tilapia - Batangas
   (c) Local-fresh Galunggong - Southern Palawan & Lucena, Quezon
   (d) Alumahan - Malabon Fish Port (Lucena, Quezon)
5. Despite the approaching Christmas holidays, influx of people in the monitored markets continue to be low. Relative to this, vendors continue to sell limited volumes or not open their fish stalls at all to avoid profit loss.
6. Precautionary safety measures against COVID-19 (i.e., wearing of face masks and face shields and mandatory temperature checks & hand disinfections) are still being implemented in the monitored markets. Further, per IATF directive announced 15 Dec. 2020, face shields are mandatory for individuals entering enclosed spaces such as malls and markets *(Source: Esguerra, D. (2020, Dec. 15) Wearing of face shield now required in public places. Inquirer.net. Retrieved from: https://newsinfo.inquirer.net/1371933/wearing-of-face-shield-now-required-in-public-places)*
7. On Suggested Retail Prices (SRP) compliance, following are the Suggested Retail Prices of imported-frozen galunggong, bangus, tilapia, and alumahan as well as the monitored markets with vendors exceeding the maximum allowable limit of the SRP:
   (a) Tilapia (Php120.00/kg) - Tandang Sora and Kamuning Markets
   (b) Bangus (Php160.00/kg) - Trabajo, Tandang Sora, Kamuning, and Galas Markets
   (c) Imported-frozen Galunggong (Php140.00/kg) - Trabajo, Kamuning, Mega-Q, Farmers, Balintawak, and Muñoz Markets
   (d) Alumahan (Php250.00/kg) - Mega-Q, Farmers, Munoz, Kamuning, and Galas Markets
