Remarks/Market Observations:			<p>The following observations were gathered during the actual price monitoring activities this week:</p> <ol style="list-style-type: none"> The limited availability of fresh marine commodities, particularly Local-fresh Galunggong and Alumahan, may be attributed to the ongoing implementation of Closed Fishing Season (CFS) for pelagic fishes in Northeastern Palawan and Visayan Sea. This resulted to the relatively high price of Local-fresh Galunggong and Alumahan as majority of the available supplies in the markets are from Lucena, Quezon, where the commodity is sold at a higher price as compared to those from Visayas due to shorter transit time, which affects the freshness of the commodities. For Local-fresh Galunggong, the prevailing price is also noted to be in a wide price range as supplies in the monitored markets are a mix of new and remaining unsold supplies from previous market days. Imported-frozen Galunggong was also observed in most monitored retail markets this week as a substitute commodity for its local variant. Prevailing prices of Bangus and Tilapia, on the other hand, remain stable as supplies in the monitored retail markets remain sufficient. Major source areas of the top fishery commodities are as follows: <ul style="list-style-type: none"> a. Bangus - Bulacan b. Tilapia - Batangas c. Local-fresh Galunggong - Lucena, Quezon d. Alumahan - Malabon Fish Port (Lucena, Quezon) Amid the higher influx of people due to the approaching Christmas holidays, monitored markets are more cautious in implementing precautionary measures against COVID-19 to safeguard the vendors and consumers against the virus. Said measures include wearing of face masks and face shields, and mandatory temperature checks & hand disinfection. On Suggested Retail Prices (SRP) compliance, following are the SRPs of imported-frozen galunggong, bangus, tilapia, and alumahan, alongside the markets with vendors exceeding the maximum allowable limit: <ul style="list-style-type: none"> a. Tilapia (Php120.00/kg) - Tandang Sora and Kamuning Markets b. Bangus (Php160.00/kg) - Trabajo, Tandang Sora, Kamuning, and Galas Markets c. Imported-frozen Galunggong (Php160.00/kg) - Trabajo, Commonwealth, Balintawak, and Muñoz Markets d
