Remarks/Market Observations:	<p>The following observations were gathered during the actual price monitoring activities this week (February 10-14, 2020):</p> <ul style="list-style-type: none"> *A large supply of local Galunggong "Lalaki" (<i>Decapterus macrosoma</i>) was observed in majority of the monitored markets. However, majority are small-sized and only a few are medium-sized. *The supply of other marine fishes, except local Galunggong (<i>Decapterus spp.</i>), remain low in all the monitored retail markets. The low supply of marine fishes may be associated to the low volume of catch caused by: <ul style="list-style-type: none"> (a) the strong winds and cold weather brought by the Northeast wind "Hanging Amihan," wherein marine fishes normally stay at the bottom of the ocean; (b) the occurrence of full moon last February 9, 2020, the bright moon light causing marine fishes to scatter making them difficult to catch; and (c) the implementation of Closed Fishing Season (CFS) for some marine fishes such as <i>Sardinella spp.</i> and <i>Rastrelliger spp.</i> in some major fishing grounds in the country. *An abundant supply of frozen/imported Galunggong alongside other Galunggong species such as "Balsa" (<i>Decapterus macarellus</i>), "Babae" (<i>Decapterus russelli</i>) and "Burot" (<i>Decapterus kurroides</i>) is available in all the monitored markets. *Majority of frozen/imported Galunggong are medium to large-sized. *Some vendors prefer frozen/imported over local Galunggong due to its relatively lower price. *The supply of Tilapia remain stable in majority of the monitored markets, with most of the supply coming from Pampanga. Based on vendors, the supply of Tilapia Batangas in the markets is starting to increase. *Some retail vendors opt to not get fresh-chilled Tilapia because majority of the consumers prefer live Tilapia. *Some markets vendors are selling live Tilapia at Php20.00/kg higher than fresh-chilled Tilapia. *The price and supply of Bangus remain stable in all the monitored retail markets. However, still no supply of Bangus Batangas are observed at the markets. *The supply of Bangus, Tilapia, and local Galunggong are being sold in mixed sizes in some of the monitored retail markets. *Lesser supply of seaweeds was observed at the Commonwealth Market. *The three-month fishing ban for Sardines, Herrings (<i>Sardinella spp.</i>), and Mackerels (<i>Rastrelliger spp.</i>) in some parts of the Visayan Sea (per Fisheries Administrative Order No. 167-3 Series of 2013), is set to end on the 15th day February of 2020.
