Remarks/Market Observations:	<p>The following observations were gathered during the actual price monitoring activities this week (February 17-21, 2020):</p> <ul style="list-style-type: none"> *A large supply of local Galunggong "Lalaki" (<i>Decapterus macrosoma</i>) is still available in majority of the monitored markets. However, majority are small-sized and only a few are medium-sized. *The supply of other marine fishes, except local Galunggong (<i>Decapterus spp.</i>), remain low in all the monitored retail markets. The supply of marine fishes continue to be affected by: <ul style="list-style-type: none"> (a) the strong winds and cold weather brought by the Northeast wind "Hanging Amihan," wherein marine fishes normally stay at the bottom of the ocean, resulting to a low catch; and (b) the implementation of Closed Fishing Season (CFS) for <i>Sardinella spp.</i> in some parts of Zamboanga Sea per BFAR Administrative Circular (BAC) 255, Series of 2014. *The three-month fishing ban for Sardines, Herrings (<i>Sardinella spp.</i>), and Mackerels (<i>Rastrelliger spp.</i>) in some parts of the Visayan Sea (per Fisheries Administrative Order No. 167-3 Series of 2013) ended last 15 February 2020. The supply of marine fishes is expected to increase in the coming days. *An abundant supply of frozen/imported Galunggong alongside other Galunggong species such as "Balsa" (<i>Decapterus macarellus</i>), "Babae" (<i>Decapterus russelli</i>) and "Burot" (<i>Decapterus kurroides</i>) is available in all the monitored markets. *Majority of frozen/imported Galunggong are medium to large-sized. *Some vendors prefer frozen/imported over local Galunggong due to its relatively lower price, making it easier to sell. *The supply of Tilapia remain stable in majority of the monitored markets. Based on the gathered data, most of the supply are still from Pampanga while the supply from Batangas has begun increasing. All the monitored markets this week have supply Tilapia from Batangas. *Some retail vendors opt to not get fresh-chilled Tilapia because majority of the consumers prefer live Tilapia. *Some markets vendors are selling live Tilapia at Php20.00/kg higher than fresh-chilled Tilapia. *The price and supply of Bangus remain stable in all the monitored retail markets. However, still no supply of Bangus Batangas are observed at the markets. *The supply of Bangus, Tilapia, and local Galunggong are being sold in mixed sizes in some of the monitored retail markets. *Lesser supply of seaweeds was observed at the Commonwealth Market and Tandang Sora this week. *Most of the available supply of Alimasag at the Muñoz Market today are small to medium-sized.
