Remarks/Market Observations:			<p>The NA, through DA Administrative Circular No. 91, has issued the following Suggested Retail Prices (SRP) for selected fishery commodities effective 24 February 2020:</p> <ol style="list-style-type: none"> <li>Cage-Cultured Bangas: Php 162.00/kg</li> <li>Pond-cultured Tilapia: Php 120.00/kg</li> <li>Imported Galanggang: Php 130.00/kg</li> </ol> <p>The following observations were gathered during the actual price monitoring activities this week (February 24-28, 2020):</p> <ul style="list-style-type: none"> <li>*The prevailing retail price of imported Galanggang remain higher than Php 143.00/kg, which is the allowable limit of the SRP.</li> <li>*Some vendors are unable to follow the set SRP due to the high wholesale price from their respective suppliers. In addition, some market vendors from Kamuning, Galas, Munoz, and Tandang Sora are sourcing their supply from nearby retail markets (e.g. Farmers), which brought another level of price mark-up.</li> <li>*A large supply of local Galanggang "Laklak" (<i>Decapterus macrolepis</i>) is still available in majority of the monitored markets.</li> <li>*The supply of medium-sized local Galanggang "laklak" (<i>Decapterus macrolepis</i>) increased in majority of the monitored markets. However, majority of the supply are still small-sized.</li> <li>*The three-month fishing ban for Sardines spp. in some parts of Zamboanga Peninsula as stated in the BFAR Administrative Circular (BAC) 255, Series of 2014 is set to end on 1 March 2020. More supply of marine fishes is expected on the coming days.</li> <li>*A large supply of imported Galanggang is still available in all the monitored markets. However, the supply in retail markets is said to have decreased due to vendors' preference of local Galanggang over imported.</li> <li>*A large supply of Sardines spp. was observed in majority of the monitored markets this week.</li> <li>*The prevailing retail price of medium-sized Tilapia remain stable within the set SRP of Php 120.00/kg.</li> <li>*Most of the Tilapia supply are still from Pampanga. The supply from Batangas has begun increasing.</li> <li>*Some market vendors are selling live Tilapia at Php 20.00/kg higher than fresh-chilled Tilapia.</li> <li>*The prices and supply of Bangas remain stable in all the monitored retail markets and still within the set SRP. However, still no supply of Bangas Batangas was observed in the markets.</li> <li>*The supply of Bangas, Tilapia, and local Galanggang are being sold in mixed sizes in some of the monitored retail markets.</li> <li>*Larger supply of seaweed was observed at the Commonwealth Market and Tandang Sora this week.</li> <li>*Some vendors noted that the demand from the buying public for fishery commodities are low (e.g. mutamang ang bentahan) which may contribute to lessen their selling price and for some to lessen their supply.</li> </ul>
