Remarks/Market Observations:	<p>The DA, through DA Administrative Circular No. 01, has issued Suggested Retail Prices (SRP) for selected fishery commodities effective 24 February 2020:</p> <ol style="list-style-type: none"> Cage-Cultured Bangus: Php162.00/Kg Pond-cultured Tilapia: Php120.00/Kg Imported Galunggong: Php130.00/Kg <p>The following observations were gathered during the actual price monitoring activities this week (March 2-6, 2020):</p> <ul style="list-style-type: none"> *The prevailing retail price of imported Galunggong remain higher than the Php143.00/kg, which is the allowable upper limit of the set SRP. *Some vendors are unable to follow the set SRP due to the high wholesale price from their respective suppliers. In addition, some market vendors from Kamuning, Galas, Muñoz, and Tandang Sora are sourcing their supply from nearby retail markets (e.g. Farmers), which brought another level of price mark-up. *The supply of marine fishes, including local Galunggong (<i>Decapterus spp.</i>) began to decrease during the latter part of the week as a result of the nearing of full moon on March 9 where the moon light causes fishes to scatter, making them difficult to catch. *The three-month fishing ban for <i>Sardinella spp.</i> in some part of Zamboanga Peninsula as stated in the BFAR Administrative Circular (BAC) 255, Series of 2014 ended this week. Higher volume of the said commodity is expected on the coming days. *A large supply of imported Galunggong is still available in all the monitored markets. However, the supply of the said commodity decreased due to market vendors' preference of local Galunggong over imported. Also, the abundant supply of local Galunggong and its relatively lower wholesale price contributed for some vendors to sell local Galunggong over imported. *A large supply of <i>Sardinella spp.</i> was observed in majority of the monitored markets this week. *The prevailing retail price of medium-sized Tilapia remain stable within the set SRP at Php120.00/kg. *The Tilapia supply is still mostly from Pampanga. The Batangas is recorded to be increasing. *Some markets vendors are selling live Tilapia at Php20.00/kg higher than fresh-chilled Tilapia. *The price and supply of Bangus remain stable in all the monitored retail markets and still within the set SRP. *The supply of Bangus, Tilapia, and local Galunggong are being sold in mixed sizes in some of the monitored retail markets. *Some vendors noted that the demand from the buying public for fishery commodities are low (i.e., matumal ang bentahan), which urged them to lessen their selling price and or lessen their supply for selling.
