Remarks/Market Observations:

The prevailing retail prices of medium-sized Bangus, Tilapia, local Galunggong, imported Galunggong, and Alumahan are currently at Php160.00/kg, Php120.00/kg, Php200.00/kg and Php280.00/kg, Php200.00/kg and Php240.00/kg, respectively.

Suggested Retail Prices (SRP) for selected fishery commodities effective 24 February 2020 (Per DA Administrative Circular No. 01):
1. Cage-cultured Bangus: Php162.00/kg
2. Pond-cultured Tilapia: Php120.00/kg
3. Imported Galunggong: Php130.00/kg

The following observations were gathered during interview with some market vendors and administrators:

1. A low supply of marine fishes, including local Galunggong (*Decapterus spp* .), is observed in all the monitored markets due to the occurrence of full moon last March 9, where the bright moon light causes fishes to scatter, making them difficult to catch.
2. Majority of the available local Galunggong are small-sized.
3. The supply of imported Galunggong in the monitored retail markets remain lower as compared last February.
4. The retail price of imported Galunggong in the monitored markets remain higher than Php143.00/kg, which is the upper limit of the SRP.
5. Some vendors are unable to follow the set SRP due to the high wholesale price from their respective suppliers. In addition, some vendors from Kamuning, Galas, Muñoz, and Tandang Sora are sourcing their supply from nearby retail markets (e.g. Farmers), which brought another level of price mark-up.
6. The prevailing retail price of medium-sized Bangus and Tilapia remain stable within the set SRP due to the sufficient supply in all the monitored markets.
7. The demand from the buying public is low (i.e., matumal ang bentahan), which caused some retail vendors to lessen their supply for selling and for some to lessen their supply. The low demand may be attributed to the issue on Corona Virus (COVID-19), which resulted to lesser buyers in the markets.
