Remarks/Market Observations:		<p>The following observations were gathered during the actual price monitoring activity this week (March 9-13, 2020):</p> <ul style="list-style-type: none"> *The price of Bangus and Tilapia remain stable due to the ample volume at the Navotas Fish Port. *There are still frozen fishery commodities being sold in the market. However, there is less imported Galunggong observed due to the availability of local Galunggong. *Most of the unloaded fishery commodities are of poor quality and are being sold mixed with other species. *Less volume of marine fishes unloaded at the Fish Port due to the occurrence of full moon on 9 March 2020 which hindered some fishing operations.
