Remarks/Market Observations:	<p>The following observations were gathered during this week's (March 23-27) price monitoring activity:</p> <ol style="list-style-type: none"> The supply of fishery commodities remain sufficient due to the availability from major sources (i.e., Navotas and Malabon Markets). Large volumes of marine fishes, such as local Galinggong (<i>Decapetere</i> spp.), <i>Yalungay</i>, <i>Isabang Babid</i>, <i>Bilog</i>, and <i>Matanabaka</i>, were observed in the monitored markets. Majority of Galinggong Babae are small-sized while Galinggong Lalaki are small and medium-sized. Only Balintawak Market has supply of imported Galinggong. The absence of imported Galinggong in other monitored markets may be due to the abundance of its local variant, which is more preferred by consumers. The prevailing price of Banggai and Tilapia in the monitored markets is higher this week due to the Enhanced Community Quarantine (ECQ). Only a small volume of Tilapia from Batangas is available in the monitored retail markets. Most of the supplies are from Pangasinan. Some fish vendors in the following markets are still selling their supply of Banggai and Tilapia above the allowable limit of the set Suggested Retail Price (SRP). This may be due to some retailers buying their supply from nearby retail markets (i.e., Farmers), causing another level of price mark-up. <p>• Batangas – Kamuning, Galas, Tandang Sora, Trabajo, Commonwealth • Tilapia – Kamuning, Tandang Sora 8. On March 24, 2020, there are relatively more buyers observed at the Balintawak, Muñoz, Mega-Q, Tandang Sora, and Commonwealth Markets, while a low influx of buyers was observed at the Farmers and Trabajo Markets. With the implementation of ECQ, buyers are securing their supplies in the morning. Meanwhile, on March 27, more buyers are observed at the Balintawak, Mega-Q, Farmers and Kamuning Markets. Influx of buyers in other remaining markets are still minimal. 9. More fish vendors are observed in the markets on March 24. However, most have reduced their volume of fish for selling. Several fish stalls were also closed as some vendors have difficulty in getting fish supplies from major fish ports due to the suspension of mass transportation and lack of private vehicles. 10. Trabajo, Tandang Sora, Kamuning, Quinta, and Muñoz Markets continue the strict implementation of a "One Entry, One Exit" Policy and issuance of buyers entering their markets. The foregoing markets also continued requiring quarantine passes upon entry. 11. Some markets also started implementing other restrictions relative to the implementation of ECQ such as "No ID, No Entry" policy at the Navotas Fish Port, and "No Face Mask and Quarantine Pass, No Entry" policy at the Trabajo Market. PPDA also stopped the issuance of IDs at the Navotas Fish Port to avoid crowding.</p>
