			<p>April 5-11, 2020:</p> <p>1. In view of the Lenten Season (Holy Week), major observations were recorded below: a. High influx of buyers were observed in Commonwealth, Tandang Sora, Quinta, Trabajo, Mega-Q, Kamuning and Balintawak Markets to buy fresh fish commodities; b. Prices of fishery commodities at the Navotas Fish Port (retail) increased; and c. The following markets will be closed in observance of the Holy Week: (i) Tandang Sora & Mega-Q Market - April 9-10, 2020 (ii) Quinta & Trabajo Market - April 10, 2020</p> <p>2. Large volumes of small-sized local Galunggong Babae (<i>Decapterus rassellii</i>) were observed in the monitored markets. Meanwhile, majority of the observed local Galunggong Lalaki are small to medium-sized.</p> <p>3. Lesser volumes of selected marine commodities were observed in the monitored markets as a result of the occurrence of full moon or "Pink Moon" on April.</p> <p>4. Only Balintawak and Farmers Markets have medium-sized imported Galunggong, while Muñoz has large-sized. The other remaining markets have no supply of the commodity, which may be attributed to the availability of its local variant.</p> <p>5. Sufficient volumes of Bangus and Tilapia are available in the markets, with majority of Tilapia supply coming from Pampanga.</p> <p>6. Some fish stalls in the monitored markets remain closed in fear of acquiring COVID-19.</p> <p>7. The wide disparity between the wholesale and retail price of local galunggong may be due to any of the following reasons: a. Not all fish retailers are sourcing from Navotas Fish Port. b. Smaller markets, such as Kamuning and Galas Markets, are usually getting their fish supplies from neighboring bigger retail markets like Farmers, Mega-Q, and Commonwealth Markets. c. Some markets and vendors are acquiring directly from producers and fish traders/ viajeros coming from other source areas (Quezon, Bulacan, and Pampanga). d. Some vendors are buying fish on a credit basis, which commands a higher price of commodities than those who buy on a cash basis.</p> <p>8. Some of the challenges in getting accurate price data and market observations during monitoring is the non-transparency and unwillingness of vendors to provide accurate and comprehensive market data and information. It is also possible that relevant market information (e.g., source area and pass-on price) from the first or previous layer of market structure is unknown to vendor being interviewed during monitoring.</p> <p>9. However, some fish vendors from the specified markets below were observed to be selling their supply of Bangus and Tilapia above the maximum allowable limit of the set SRP due to price mark-up caused by sourcing their supply in nearby retail markets (i.e. Farmers): • Bangus - Kamuning, Galas, Tandang Sora • Tilapia - Kamuning</p> <p>10. Some precautionary management measures stated in the report dated 3 April 2020 (below) are being implemented in the monitored markets. (a) Kamuning Market - "No ID, No Entry Policy"; After just two days of implementation, the barangay removed the policy on the maximum number of buyers entering the market at a time, in fear that no buyers will come to Kamuning Market at all. (b) Quinta Market - "One Entry, One Exit Policy"; "No Mask, No Entry Policy"; Maximum of 20 buyers inside the market during peak hours; Market admin also imposed shift in trading hours from 7:00AM to 7:00PM from 5:00AM to 8:00PM, but in actual monitoring, trading hours still start as early as 5:00AM. (c) Muñoz Market - "One Entry, One Exit Policy"; "No Mask, No Entry Policy"; Established number of buyers in the market at a time, depending on the influx of buyers; Shift in trading hours to 6:00AM to 6:00PM from previous schedule of 6:00AM to 6:00PM. (d) Tandang Sora Market - "One Entry, One Exit Policy"; Under Extreme Community Quarantine in Barangay Tandang Sora (e) Galas Market - Maximum of 6-7 buyers inside the market at a time. (f) Balintawak Market - "No Mask, No Entry Policy"; Shift in trading hours to 3:00AM to 6:00PM from 24-hour operation (g) Commonwealth Market - Shift in trading hours to 4:00AM to 6:00PM from 2:00AM to 10:00PM (h) Navotas Fish Port - "No Entry, No ID Policy"; Restriction of ID Issuance; Shift in trading hours to 4:00PM to 1:00AM from 7:00PM to 3:00AM (i) Trabajo Market - resumption of market operations</p>
