Remarks/Market Observations:	<p>The following observations were gathered during the actual price monitoring activities this week (April 13-17, 2020):</p> <ul style="list-style-type: none"> *Low volume of unloading at the Navotas and Malabon Fish Ports early this week, causing vendors from Commonwealth, Farmers, Mega-Q, and Munoz to directly source their fish supplies from major source areas such as Quezon Province. Marine commodities sourced from Quezon are observed to be sold at a higher price as compared to those unloaded at fish ports due to the logistic costs and its better quality in terms of freshness. *Limited supplies of all marine commodities, except for small-sized Galunggong Babae (<i>Decapterus russelli</i>), which is abundant in the monitored markets. Majority of the available Galunggong Lalaki are medium to large-sized. *Medium-sized imported galunggong is available only at the Mega-Q and Farmers Markets. Large-sized imported galunggong was observed at the Quinta Market. *Sufficient supply of Bangus and Tilapia in the monitored markets—with majority of the Tilapia sourced from Pampanga & Batangas, and Bangus from Pangasinan & Bulacan. Majority of the available Bangus Pangasinan are large-sized. *Commonwealth, Tandang Sora, Mega-Q and Munoz Markets continue to have high influx of people. Farmers Market was observed to have higher foot traffic on the latter parts of the week, causing buyers to not observe the social distancing policy. Other remaining markets have low influx of buyers. *In addition to implementing precautionary management measures, the following updates were noted from the monitored markets: <ul style="list-style-type: none"> a. Commonwealth Market - Non-observance of social distancing policy. Limitation of buyers entering the markets have also caused low sales for vendors. b. Farmers - market administrators are securing observance of physical distancing in the market. c. Quinta - trading hours has shifted to 6:00AM to 5:00PM from 7:00AM to 7:00PM d. Galas - no trading operations beginning April 20 due to the low number vendors opening their stalls and low influx of consumers. e. Kamuning Market - Implementation of new trading schedule effective 9 April 2020 (i.e., Mondays – closed for disinfection; Tuesdays, Wednesdays, Thursdays, and Saturdays – market schedule for Kamuning residents; Fridays and Sundays – market schedule for non-Kamuning residents) f. Navotas Fish Port (Retail) - Lesser vendors are selling in the market due to the low demand caused by lower number of buyers g. Other precautionary management measures can be referred to from reports dated 3 & 14 April 2020. *Price of Bangus were found to be above the maximum allowable limit of the set SRP in the Kamuning, Galas and Tandang Sora Markets. *In Navotas Fish Port, traders are having a hard time selling their fishes due to low number of buyers. Low availability of fishery commodities available at the fish port due to the hampered transportation caused by the Batangas Port lockdown. *Generally the supply of local galunggong, bangus, and tilapia is sufficient due to its availability from the major sources compared to last monitoring on April 14.
