**Remarks/Market Observations:**

**The following observations were gathered during the actual price monitoring activities this week (April 13- 17, 2020):**

- \*The price of Bangus and Tilapia remain stable due to enough supply and low demand.
- \*Lesser marine fish are available at the market in early part of the week. Supply returned on the latter part of the week, with wide variety of marine fishes unloaded.
- \*Large volume of medium to large-sized Galunggong, especially Galunggong Babae (*Decapterus ruselli*) are being unloaded at the fish port.
- \*Only large-sized Bangus from Pangasinan are unloaded.
- \*Some vendors and traders have stopped their operations in fear of bankruptcy due to the low influx of buyers. Some have also limited their volume for selling as it takes "too long" for them to sell out all their supplies.
- \*Philippine Fisheries Development Authority (PFDA) have established disinfection tents in the entrance of the Navotas Fish Port Complex. Individuals are also required to wear boots and IDs upon entry. These precautionary measures, alongside the hampered trading operations and public's fear of acquiring COVID-19, have caused lesser number of buyers in Navotas.
