Remarks/Market Observations:

The following observations were gathered during the actual price monitoring activities (May 24-31, 2020):

1. Fish kill in Anda and Bolinao, Pangasinan affected Php2.19 million worth of fingerlings and harvestable Bangus *(The Philippine Star, 23 May 2020)*. The incident resulted to an increase in the selling price of Bangus from Pangasinan among some fish stalls. Supply of Bangus from Pangasinan is expected to decrease in the coming days.
2. Bangus, Tilapia, Local Galunggong, and other fresh marine commodities are abundant in the monitored markets due to the availability of supplies from major source areas (Navotas Fish Port, Malabon Market, Quezon Province). However, most of the unloaded at the Navotas Fish Port are of low quality (in terms of freshness and uneven sizes). Out of the ten (10) monitored retail markets, only Trabajo Market has no supply of medium-sized Bangus.
3. Local galunggong is more abundant in the monitored markets as compared to imported galunggong. More specifically, the latter commodity is available in only two markets at the most. The low supply is attributable to the low demand of imported galunggong as consumers prefer its local variant.
4. Farmers Market is sourcing its supply of local galunggong directly from Lucena, Quezon, where the commodity is priced higher due to logistic costs. Galas Market, on the other hand, is buying its supplies from nearby retail markets, resulting to higher retail price.
5. Dominant source areas of bangus, tilapia, and local galunggong at retail level are the following:
   a. Bangus - Bulacan
   b. Tilapia - Batangas & Pampanga
   c. Local Galunggong - Navotas Fish Port & Quezon Province
6. There continues to be a low influx of customers in the markets as the public continue to take precautionary measures relative to COVID-19 outbreak, except at the Commonwealth, Farmers, and Kamuning Markets where there is an increase in the number of buyers upon the lifting of restrictions in some areas.
7. For the May 26 actual price monitoring, monitored markets are compliant to the Suggested Retail Price (SRP) for bangus and tilapia. For local galunggong, only Galas, Kamuning, and Commonwealth are compliant to the set SRP. On May 21, all monitored markets are compliant to the Suggested Retail Price (SRP) of tilapia. For bangus, all markets except Galas, are observing the SRP. Lastly, for local galunggong, Kamuning and Commonwealth Markets are selling the commodity within the maximum allowable limit of SRP.
8. Retail operations at the Balintawak Market is still suspended with no definite date of resumption.
9. All monitored markets continue to implement their respective policies and safety measures to control the spread of COVID-19.
