Remarks/Market Observations:

The following observations were gathered during this week's price monitoring activities:

1. Adequate supplies of bangus, tilapia, and local galunggong are available in the monitored markets. Supply of bangus at Trabajo Market are only large-sized sourced from Pangasinan. Imported galunggong, on the other hand, continues to have low supplies in the monitored retail markets and is available only at Farmers Market (June 2) and Farmers and Moga-Q Markets (June 5). Due to the occurrence of full moon on June 5, catch of marine fish were expected to decrease.
2. Dominant source areas of the top fishery commodities for this week are as follows:

Commodity	Retail (10 Retail Markets)
Bangus	Bulacan
Tilapia	Batangas
Local Galunggong	Navotas Fish Port, Malabon Market, Quezon Province

3. Despite the non-availability of medium-sized Local Galunggong at the Navotas Fish Port, retail markets were found to have supplies of the commodity, which were either:
a. mixed with other marine fish species in tubs unloaded at the fish port, which are then sorted upon arrival at the retail markets;
b. sourced from Malabon Market and/or Lucena, Quezon; or
c. remaining supplies from previous day.
4. In light of the recent shift to GCQ, Philippine Fisheries Development Authority continues the strict implementation of its market policies as well as its new vehicle parking system, where each vehicle type has designated parking area.
5. More consumers are observed at the Galas and Quinta Markets compared to previous weeks. However, other remaining markets continue to have low number of buyers despite the recent shift to General Community Quarantine (GCQ). The low demand may be attributed to the following:
(a) restrictive mark et schedules and policies;
(b) buyers' lack of financial resources; and
(c) some buyers have started going back to work and market days are scheduled on weekends.
6. Malabon Market was closed from June 2 to 3 for thorough disi nfection. As a result, vendors sourcing from Malabon Market opted to not open their stalls on the said dates.
7. Similarly, Navotas Fish Port (Markets 1 to 5) were also closed from June 6 to 7 for regular cleaning and disinfection.
8. For Suggested Retail Price, all markets were compliant to the set SRPs for Bangus (Php162.00/kg) and Tilapia (Php120.00/kg) on June 2. However, on June 5 , Galau was non-compliant for Bangus and Kamuning for Tilapia. For local galunggong, only Kamuning, Galas, and Commonwealth are not observing the SRP of Php130.00/kg.
9. The disparity in the prices of other commodities may vary depending on its species, quality, size, volume of supply, source areas, weather condition and lunar periodicities occuring.

(-) - Price and Volume not available during price monitoring

***NA** - Source Area not available during price monitoring*
