		Male	85	China, Vietnam	-	85	85	85	-	China, Vietnam
		Female	65	China, Vietnam	-	65	65	65	-	China, Vietnam

Remarks/Market Observations:

The following observations were gathered during this week's price monitoring activities:

- Prevailing price of Tilapia increased due to the higher demand. Similarly, Bangus had a price increment due to the lesser supplies brought by no availability from Laguna as well as the availability of mainly large variants.
- Low unloading of marine commodities on June 4 to 5 from Palawan and Mindoro due to the occurrence of full moon on June 5, which hindered fishing operations of some vessels. Further, local galunggong unloaded were not of good quality in terms of freshness.
- Tulingan, Tamban, and other mixed fishery commodities were also unloaded at the Navotas Fish Port
- Frozen fishery commodities are also being traded in the port. However, these are sold at a lower price due to consumers' preference for local or fresh marine commodities.
- Due to very low influx of buyers at the Navotas Fish Port some traders limited their supply for selling while some lowered their price by 20 to 50 percent in order to sell out all supplies. According to some vendors, the low demand is also attributable to the consumers' lack of financial resources amid the long duration of lockdown.
- The following preventive management measures for buyers and workers in NFPC are continuously being implemented by the Philippine Fisheries Development Authority (PFDA):
 - Wearing of face mask, white shirt, and white rain boots;
 - Showing of NFPC-issued ID card upon entry;
 - Checking of temperature (thermal scanning);
 - Washing of hands in the designated handwash area;
 - Disinfection of boots in the three-stage footbath; and
 - Strict maintaining of social distancing.

(-) - Price and Volume not available during price monitoring
 NA - Source Area not available during price monitoring
