<p>The following observations were gathered during this week's actual price monitoring activities:</p> <ol style="list-style-type: none"> <li>Bangka, Tilapia, and Local Galunggong are abundant in supplies among the monitored retail markets. Medium-sized Imported Galunggong are not observed in all markets due to the consumers' penchant for local galunggong because of its freshness. However, large-sized Imported Galunggong were observed at Farmers Market.</li> <li>The price and demand for tilapia decreased among some monitored retail markets as a result of the Tilapia lake virus (TILV) issue in Region 4A. The said issue, according to RD Sammy Malvas of Region 4A, is expected to bring further mortality for affected tilapia, causing lower supplies in the upcoming days. Fishfolk and producers have also been warned of Acute Hepatopancreatic Necrosis Disease (AHPND) for shrimps.</li> <li>Dominant source areas of the top fishery commodities for this week are as follows: Commodity: Retail (10 Retail Markets) Bangka: Batanga, Navotas Fish Port Tilapia: Local Galunggong Local Galunggong: Navotas Fish Port</li> <li>Despite the opening of some jeepney routes, the influx of buyers in the monitored markets remain very low as the buying public prefer staying at home as precaution against the COVID-19 pandemic. As a result, some fish vendors opted to not open their stalls.</li> <li>Precautionary management measures against COVID-19 are still being implemented in the respective markets. Munoz Market has suspended its trading operations last June 26 for sanitation and disinfection. Retail operations at the Balintawak Market are still indefinitely suspended.</li> <li>The suggested Retail Price, the following markets have vendors selling beyond the maximum allowable limit: Commodity: Markets selling beyond maximum allowable limit Tilapia (Php 20.00/kg): Kamuning Market Local Galunggong (Php 130.00/kg): Tandang Sora, Trabaja, Quinta, Kamuning, Galas, Farmers Markets</li> </ol>
