Remarks/Market Observations:

The following observations were gathered during this week's price monitoring activities:

1. Tilapia and marine commodities including local Galunggong are sold at relatively lower prices due to the large volume of unloading at the Navotas Fish Port.
2. Bangus, however, is sold at a relatively higher price due to the unloaded being large variants from Pangasinan.
3. Frozen commodities are still being traded at the Navotas Fish Port. However, prices decreased due to the low demand alongside the large volume of fresh commodities, which is most preferred by the buyers/consumers.
4. The Philippine Fisheries Development Authority (PFDA) continues the strict implementation of the following preventive management measures for buyers and workers at the Navotas Fish Port:
 - a. Wearing of face mask, white shirt, and white rain boots;
 - b. Showing of NFPC-issued ID card upon entry;
 - c. Checking of temperature (thermal scanning);
 - d. Washing of hands in the designated handwash area;
 - e. Disinfection of boots in the three-stage footbath; and
 - f. Strict maintaining of social distancing.
