Remarks/Market Observations:	<p>The following observations were gathered during this week's actual price monitoring activities:</p> <ol style="list-style-type: none"> Ample supplies of Bangas, Tilapia, and Local Galunggong were available at the monitored retail markets. No Imported Galunggong were observed at the monitored retail markets. Dominant source areas of the top fishery commodities for this week are as follows: Commodity: Retail (10 Retail Markets) Bangas: Batangas Tilapia: Navotas Fish Port Local Galunggong: Batangas 3. Low demand for Tilapia from Batangas is still apparent at Muñoz, Tandang Sora, and Mega-Q Markets amid the alleged issue on the Tilapia Lake Virus (TLV). Influx of people continue to be low as consumers continue to take precaution against COVID-19. Vendors have also opted not to open their stalls due to little or no sales. Similarly, monitored markets are continuously implementing measures to ensure public safety and avoid the further spread of the virus. At Quinta Market, a handwashing station has been installed to prevent the further spread of COVID-19. As of June 15, the Suggested Retail Prices (SRP) of the top fishery commodities (Bangas, Tilapia, and Local & Imported Galunggong) have lapsed. The Bureau has submitted recommendations on the revised SRP of the foregoing commodities.
