		Female	-	-	-	-	-	-	NA
Remarks/Market Observations:		<p>The following observations were gathered during this week's price monitoring activities:</p> <ol style="list-style-type: none"> There is stable volume of unloadings of Bangus and Tilapia, alongside the very low demand from consumers. Local Galunggong is sourced from three (3) fishing vessel operators, resulting to a wide range of prices. According to brokers, price vary in terms of the quality of fish (freshness, sizes and mixed with other species). Dominant sources for the following fishery commodities: Commodity Wholesale (Navotas Fish Port) Bangus Pangasinan Tilapia Batangas Local Galunggong Palawan According to some vendors, there is a decrease in supply relative to the transition period to lean fishing season. There is available local Galunggong Lalaki & Babae, Tulingan, Gulyasan, Yellow Fin, Balsa and other mixed fishery commodities available at the market. Frozen fishery commodities are still being traded at the Navotas Fish Port. Only few buyers were noted at Navotas Fish Port due to the flooding caused by the high tide. Navotas Fish Port Markets 1-5 is scheduled for a monthly cleaning and disinfection on July 4 to 5. All traders and buyers have been advised that the Port will be close. Philippine Fisheries Development Authority (PFDA) continues to implement preventive measures for buyers and traders relative to COVID-19 outbreak.
