The following observations were gathered during the actual price monitoring activities this week:

- Bangus, Tilapia, and Local Galunggong are in sufficient volumes at the monitored retail markets, given the current low demand among consumers. Still, Trabajo Market has no medium-sized Bangus as its supplies are only large-sized from Pangasinan. Imported Galunggong is still available only at the Farmers and Mega-Q Markets.
 - Top fishery commodities at the 10 monitored markets are sourced mainly from the following areas:
 - Bangus - Bulacan
 - Tilapia - Batangas
 - Local Galunggong - Navotas
 - Major markets such as Malabon Fish Port and Farmers Market are sourcing their marine commodities directly from Lucena, Quezon.
 - Number of consumers continue to be few in the monitored retail markets except at Kamuning Market where there was higher foot traffic this week due to the lifting of schedule restrictions at the market.
 - A number of fish stalls are not open due to vendors' fear of no profit or spoilage of displays.
 - Enumerators at Quinta, Kamuning, Muñoz and Tandang Sora Markets continue to remind vendors and market administrators on the proper pricing of fishery commodities.
 - In response to the continuous increasing number of COVID-19 cases, monitored retail markets continue to require wearing of face masks, among other management measures. Commonwealth Market suspended its market and trading operations last 15 July 2020 (12:00NN to midnight) for a full market cleaning and disinfection.
- *Navotas City, where Navotas Fish Port is located, undergo a community lockdown from 16-29 July 2020 in efforts to contain the increasing number of COVID-19 cases in the city. (Source: <https://newsinfo.inquirer.net/1306412/navotas-lockdown-would-run-from-july-16-to-29>.) Price monitoring activity at the Navotas Fish Port was done through telecommunication.
