**Remarks/Market Observations:**

The following observations were gathered from market personnel and vendors:

- Bangus, Tilapia, and Local Galunggong continue to be in sufficient volumes in all monitored retail and wholesale markets. Imported galunggong was available in at the most two (2) monitored retail markets.
- Major source areas of the top fishery commodities are:  
Commodity Retail (10 monitored markets)  
Bangus Bulacan  
Tilapia Batangas  
Local Galunggong Navotas Fish Port, Malabon Fish Port
- At Trabajo Market, only large-sized Bangus from Pangasinan were noted as consumers prefer this variant.
- As a result of the low demand of fishery commodities, vendors are selling supplies from previous days at lower prices. Meanwhile, some vendors are limiting their volume for selling, while others opt to no longer open their stalls.
- In response to the continuously increasing number of COVID-19 cases, monitored markets continue to implement precautionary management measures such as wearing of face masks and face shields, "One Entry, One Exit Policy," and mandatory temperature checks. Social distancing, however, is no longer strictly implemented in the monitored markets.
- Enumerators at Quinta, Kamuning, Muñoz, and Tandang Sora Markets continue to remind vendors and market administrators on the regulations on price tagging of fishery commodities.
- Data gathering in the ten (10) monitored markets is currently conducted via phone calls and SMS in close coordination with market masters / administrators, traders, and fish vendors upon the suspension of physical price monitoring beginning 21 July 2020 as precaution against COVID-19.
- The Department of Agriculture is yet to comment / approve the Bureau's submitted Suggested Retail Prices (SRP) for bangus, tilapia, and local galunggong.

(-) - Price and Volume not available during price monitoring  
 NA - Source Area not available during price monitoring
